Pros2Plan Helps Food Processor/Manufacturer

Company Background

Pros2Plan provides staffing for one of the world's largest meat processor and producer. The company has annual revenue of \$14 billion and employs 50,000 associates throughout North America and Europe, with exports across 40 countries.

How Pros2Plan Helped

Our team provides the staffing to execute value-add projects that put our client's business ahead of the competition. By outsourcing key staffing gaps, the client has the flexibility to attack strategic initiatives, while continuing normal business activities and maintaining full-time staffing levels.

Our client needed assistance as they standardized and upgraded their SAP ERP System across all business units and brands, as well as, standardize and optimize their Supply Chain (Advanced Planning System) across the enterprise.

Pros2Plan provided resources with years of relevant experience coupled with industry background, specifically in the Supply Planning arena. This depth of expertise allowed the client to navigate the complexities of the roll-out knowing that they had key resources to help manage the change, the day-to-day activities of the business and achieve the vision.

Here is a sample of the projects Pros2Plan has been involved with:

- **Full Time Hires** – Director and Manager Level Supply Planning Experts and Planners
- **Excel Specialists** – Write new reports to manage business as the upgrades and implementations were taking place
- **Supply Planners** – Backfills created from the project, maternity leaves, or gaps in bandwidth
- **Master Data Experts** – Assist in day-to-day direction, clean up, optimization for future strategies moving forward
- **Testing Experts** – Consultants with supply chain knowledge through distribution and understand both SAP and Supply Planning. Testers for integration, user and system testing – both technical and functional

We have assisted our clients in hundreds of engagements over the years.

Whether you need an extra set of hands for an implementation, upgrade, business process, or gap in a project, Pros2Plan can assist with providing consultants to ensure your success. With over 20 years of recruitment experience, we know how to find the hidden talent that is not found on job boards. The success stories of our clients and of our consultants are our best reference and we want to become one of your success stories.
