Company Background

Pros2Plan provides staffing for one of the world's largest providers of water, hygiene and energy technologies and services. Their markets include food, energy, chemical, healthcare, industrial and hospitality. This global provider has over 47,000 associates at more than 1.3 million locations in more than 170 countries.

How Pros2Plan Helped

Our team provides the staffing to execute value-add projects that put our client's business ahead of the competition. By outsourcing key staffing gaps, the client has the flexibility to attack strategic initiatives, while continuing normal business activities and maintaining full-time staffing levels.

Pros2Plan started working with the client in 2013 and since then has, assisted with Implementation and roll-out of Blue Yonder Software (Formerly JDA Software, Manugistics), Demand Planning, Fulfillment, Master Planning and Collaborate across the Globe. Our client needed subject matter experts to assist them as they implemented and rolled-out their Supply Chain Advance Planning Systems across the enterprise.

Pros2Plan provided resources with years of relevant experience coupled with industry background, specifically in the supply chain planning arena. This depth of expertise allowed the client to navigate the complexities of the rollouts knowing that they had key resources to help manage the change, the day to day activities of the business and achieve the vision.

Here is a sample of the projects Pros2Plan has been involved with:

- **Blue Yonder Functional Consultants** – Global Implementation/Rollout of BY Demand, Fulfillment, Master Planning & Collaborate
 - Functional Leads/Assisted in design, configuration, implementation, testing, go-live and support
 - Optimization Projects
 - Roadmap Sessions
 - On Going Support/Trouble Shooting/Guidance
- **Blue Yonder Technical Consultants** – Global Implementation/Rollout of BY Demand, Fulfillment, Master Planning & Collaborate
 - Technical Lead – Implementation/Upgrades, Support, Architect, Issue Resolution
 - Optimization Projects, Revised Dates/Schedule Dates, UC4 Script enhancements

We have assisted our clients in hundreds of engagements over the years.

Pros2Plan continues to be a 'go-to partner' for strategic supply chain staffing. We find the right resource, with the right skillset, at the right time and with a cost that works for all. If you need a contractor for a short period of time, weeks to months to years, no worries, we will help. Or you need assistance sourcing the right full time candidate, Pros2Plan understands and will help. It is our niche.
