Pros2Plan Helps Window and Door Company

Company Background

Pros2Plan provided staffing for an international window and door manufacturing company. This world-wide company has over 9000 employees and is headquartered in Minnesota and manufactures in Europe and North America.

How Pros2Plan Helps

Pros2Plan provided a Subject Matter Expert to review current state and institute, configure and create a strategy and parameter files specifically for PUPS – including Transportation Management (TM) architecture set up. Corrected HUB Selections, Carrier Selections, Number of Stops and Stop Sequence.

In addition to the above, our expert performed the following add-ons that were not currently done in TM system; items included:

- **Add stops to already built/set to be planned/tendered loads**
- **Add-ons for New and Existing Stops**
- **Automatically add on to existing stops, kick off**
- **Create processes with as little manual intervention as possible**

Our client needed assistance with Blue Yonder (JDA) Red Prairie Transportation Management system (TM), understanding current state, optimization creation and tuning. This depth of expertise allowed the client to optimize existing TM system and create processes with little manual intervention. Pros2Plan provided a Subject Matter Expert / Transportation Management Consulting help design, configure and manage the change and achieve the vision.

Here is a sample of the projects:

- **Transportation Management Optimization**
- **Optimizer Creation and Tuning**
- **Transportation Management Architecture Design**

The duration of this project was just a few months.

We have assisted our clients in hundreds of engagements over the years.

Whether you need an extra set of hands for project management, implementation, upgrade, business process, architecture design, or just a gap in a project, Pros2Plan can assist with providing consultants to ensure your success. With over 20 years of supply chain expertise across all verticals, we can provide the right resource with the right skills set at the right time. The success stories of our clients and of our consultants are our best reference and we want to become one of your success stories.
