Pros2Plan Helps Semiconductor Company

Company Background

Pros2Plan provided staffing for a semiconductor company based in Silicon Valley. The company is a supplier of high-performance components used in high-voltage power conversion. These circuits enable compact, energy-efficient AC-DC power supplies for a vast range of electronic products including smartphones, appliances, smart utility meters, LED lights, and numerous industrial applications. They design, develop, and market analog integrated circuits for use in alternating current (AC) to direct current (DC) power conversion. The Company sells its products to original equipment manufacturers in the cellular telephone, consumer electronics, personal computer and industrial electronics industries.

How Pros2Plan Helps

Pros2Plan provided a Subject Matter Expert / Project Manager / Lead Consultant that assisted the client through a Proof of Concept, Package Validation, Contract Negotiations, and Implementation project.

Our client needed assistance with Project Management through Proof of Concept (POC) for Adexa, during the POC, it was decided that the software moving forward would be Kinaxis. When the project moved into the implementation phase, our Consultant served as a Project Manager, Subject Matter Expert, and Project Lead Consultant on behalf of the client. This depth of expertise allowed the client to navigate the complexities of the implementation knowing that they had a key resource to help manage the change and achieve the vision.

Here is a sample of the projects Pros2Plan has provided consulting for:

- **Project Manager**
- **Subject Matter Expert – Experience with Adexa and Kinaxis**
- **Package Selection Validation during Proof of Concept (POC) - Adexa**
- **Implementation – Kinaxis**

During the implementation of the Kinaxis application, our consultant played a key role in business process architecture and definition, solution design and validation, and Project Management. The duration of this engagement spanned across the better part of a year.

We have assisted our clients in hundreds of engagements over the years.

Whether you need an extra set of hands for project management, implementation, upgrade, business process, architecture design, or just a gap in a project, Pros2Plan can assist with providing consultants to ensure your success. With over 20 years of supply chain expertise across all verticals, we can provide the right resource with the right skills set at the right time. The success stories of our clients and of our consultants are our best reference and we want to become one of your success stories.
